C C 306	Intro to Lat/Gk Elem in Eng		
CC 306M	Intro to Med/Scient Term	TD 301	Introduction to Theatre

Sample Course Description for C C 306: Intro to Latin/Greek Elements in English

This course provides a systematic study of the vocabulary bases, prefixes and suffixes derived from Greek and Latin that provide almost three-quarters of all the words in the English language, and of Latin and Greek works and phrases that are commonly found in all areas of English usage, from literature to law, mathematics to medicine, science to sex. The teaching approach will be primarily lecture, although interruptions, in the form of questions from the class, will be readily accepted and often encouraged. There will be 6 quizzes. The worst will be dropped, and the average of the other 5 will count as the course grade. There will be no final.

Course Descriptions for all courses in the College of Liberal Arts may be found at:
