Friends, colleagues and former students of Dr. Eric Baker Becker III are coming together to establish a \$25,000 scholarship for graduate students studying engineering mechanics in his memory. Dr. Becker was a beloved professor for 40 years and a pioneer in complex problem solving in civil and aeronautical engineering. He conducted research impacting a wide range of engineering and scientific fields and literally wrote the book on finite elements. This scholarship will ensure that Dr. Becker's legacy lives on at UT for generations to come. Thank you for considering a gift to make this possible.
