When Dr. Hans Mark teaches UT’s introduction to Aerospace Engineering course, he shares the inside story on every major aerospace project for the last half century. That is because he was always in the room championing the people and innovations that have given our country the edge in technology superiority to win the Cold War and lead the digital age. Whether you connected with Dr. Mark at Berkely, MIT, Livermore, NASA, the Air Force, the Department of Defense or at UT, he no doubt made a mark on your life. As we plan a symposium and dinner to celebrate Dr. Mark’s 85th birthday in Austin on June 7, 2014, former students and friends are launching an effort to raise \$1M to establish the Hans Mark Scholarship. This endowment will provide full tuition to the best and brightest undergraduate students in UT’s Cockrell School of Engineering for generations to come. Dr. Mark is frustrated by the number of top students who struggle to pay for college, and he strongly believes this is the greatest legacy he can leave. The Hans Mark Scholars will go on to change the world, just like the man himself.

Please consider making a gift, so we can hit the \$1M mark for Dr. Mark’s milestone birthday and have another reason to celebrate.
